

PRESS RELEASE

**MAX RESTAINO** releases full 11 track album – **ANOTHER RAINY NIGHT IN PARIS**  
11<sup>th</sup> February 2022 – **Valentine Weekend!**

Written, produced and performed by Max Restaino himself, the brand new album is available to Pre-Order from 4<sup>th</sup> February and from the 11<sup>th</sup> to Stream and Download at an instant from all major stores. This 11 track album includes songs, such as **'Girl Of My Dreams, Before I Lose Faith In You and New York High'**

Award winning Singer, Songwriter and multi-instrumentalist Max, is scheduled to release the new album as his first studio album in 4 years following two years being out on the road touring with the likes of, Peter Andre, Steps, UB40 and Tears For Fears, which enabled him to develop his own unique sound and build a fan base, and then having a two year break due to the Pandemic

The British born singer-songwriter returned to the studio at the age of 25 to write and produce the album with more maturity, a new perspective on his musical direction and with a renewed commitment to honouring the music he has always loved as a youngster when learning to play all of his favourite instruments: Piano, Sax, Accordion, Guitar & Harmonica.

Another Rainy Night In Paris – has 11 Timeless songs with Jazz/pop melodies that help transport the soul and evoke nostalgia, and with those wonderfully smooth Jazz vocals and amazing Sax skills, Max would be perfectly at home crooning up on the Copacabana stage or wowing Las Vegas with the new Millennium Rat Pack crew.

'Another Rainy Night In Paris' is a collection of eleven original songs from Max, brought to you at the most romantic time of year. With Girl Of My Dreams, Before I Lose Faith In You and the city songs, Another Rainy Night In Paris and New York High, this brand new album comes highly recommended, and has been quoted by **Sony Latin - New York - USA** – "Wonderful vocals here, watch out Michael Bubl ."

Max comments-

*“When I sat down to write and produce my new album, I knew I wanted to make a complete change in direction and go with my love of beautiful Jazz inspired melodies, like the old classics I had learned to play on keys and sax as a novice. I think I achieved that, but gave it a modern twist.*

*In 2020, I wanted to spend time making an album, but didn't expect the whole world to stop with me, nor did I anticipate having to wait two years to get the music I had created out on the road to share with the world.*

*The album is designed to replicate a dream and to appeal to the dreamer. It commences with the song, 'If Only Dreams Come true,' then takes us on a journey through a dream, visiting along the way, our hopes, desires, losses and fears and ending at track 11 in a nightmare with - “You Can Run But You Can't Hide.”*
